

Jain Spray Hose

Prefect Solution for Your Crop Protection & Chemical Spray Requirements!

Jain Spray hose is designed to withstand high pressure spray application. These spray hoses are designed for spray of insecticides, pesticides, herbicides, fertilizers, water, nutrients and other chemical solutions.

Integrated Pest Management is critical for all fruit crops. Jain spray hose networks (see layout) are widely used by farmers for all crops, orchards, vegetables, row crops and in protected field cultivation.

- Manufactured with high performance, virgin Poly olefins material.
- Spray hose is designed to withstand high pressures.
- Resistant to chemicals used in agriculture.
- It has the best environmental stress crack resistance.
- It is tough and kink free.
- They are robust and durable.
- Marked with two parallel yellow stripes, symbol of quality.

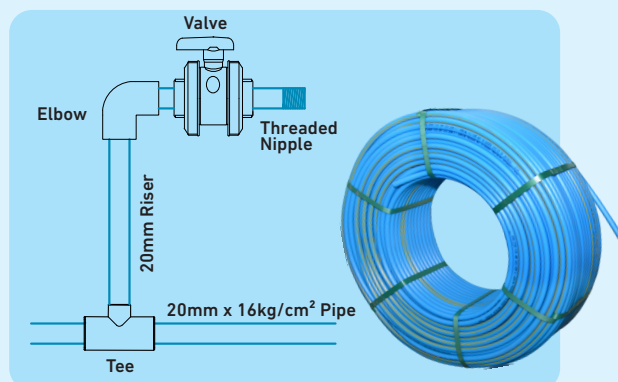

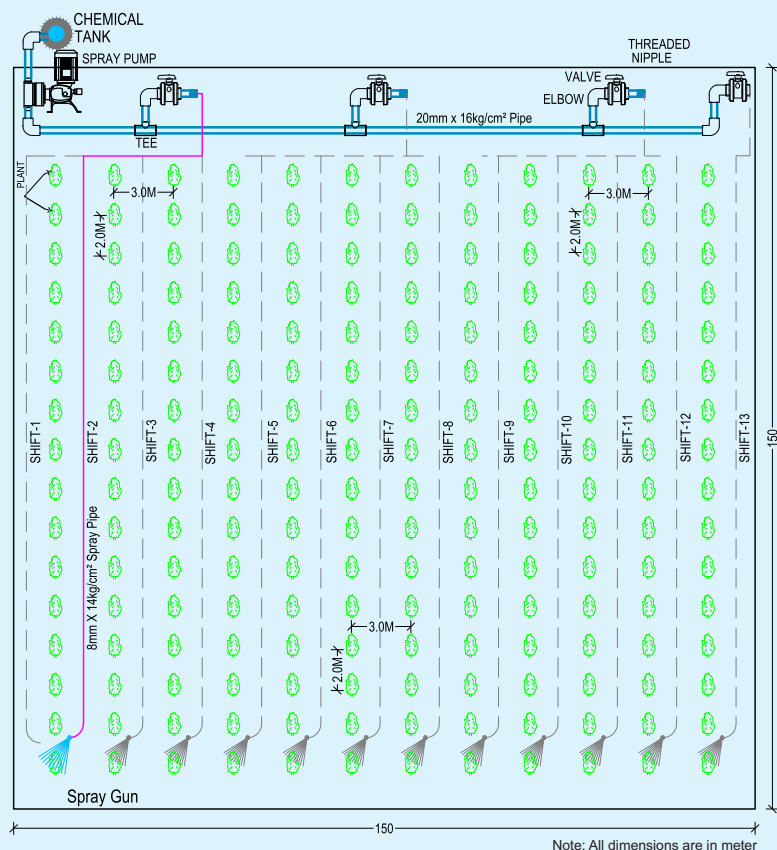

Better B-Sure, Never be Sorry!™

Technical Specifications - Jain Spray Hose

Type	Inside Dia, (mm)	Outside Dia, (mm)	Minimum Wall Thickness (mm)	Working Pressure (kg/cm ²)	Burst Pressure (kg/cm ²)
Jain Spray Hose 8 x 12.5 kg/cm ²	8.0	-	2.90	12.5	60
Jain Spray Hose 8x16 kg/cm ²	8.0	-	3.40	16.0	75
Jain Spray Hose 11x16 kg/cm ²	11.0	-	3.40	16.0	76
Jain Spray Hose 16x10 kg/cm ²	-	16	1.80	10.0	50
Jain Spray Hose 16x12.5 kg/cm ²	-	16	2.20	12.5	60
Jain Spray Hose 16x16 kg/cm ²	-	16	2.70	16.0	70
Jain Spray Hose 20x10 kg/cm ²	-	20	2.30	10.0	50
Jain Spray Hose 20x12.5 kg/cm ²	-	20	2.70	12.5	60
Jain Spray Hose 20x16 kg/cm ²	-	20	3.40	16.0	70
Jain Spray Hose 25x10 kg/cm ²	-	25	2.80	10.0	50
Jain Spray Hose 25x12.5 kg/cm ²	-	25	3.40	12.5	60
Jain Spray Hose 25x16 kg/cm ²	-	25	4.20	16.0	70

Note : Available coil length 100, 300, 500 meter
